- Modern capability

DESIRED OUTCOMES

Qnurex EAICenter Online for Dynamics 365 helps you to integrate MS Dynamics with other systems in your company faster and more efficiently.

You will use the modern user interface of MS Dynamics 365.

Qnurex GmbH
Innovation at Integration

Qnurex EAICenter Online

It simplifies effectively data transfer to Microsoft Dynamics 365 Online. It can automatically take over the resolution of lookup and picklist.

1 Modern Customizing
You can easily define the field mapping definition yourself.

2 Effective Change request
It is effective for the realization of the change request via generic execution of the field mapping definition.

3 Reduce effort
You can reduce the effort e.g. via clone of an already existed Mapping Definition.

Qnurex GmbH EAICenter Online for Microsoft Dynamics 365
